Project Control Officer — PMP, CSM | Project Controls · Financial Management · Enterprise Governance
Toronto, Ontario · keshavg0876@gmail.com · (437) 331-5861 · [LinkedIn](#) · [Website](#)

SUMMARY

PMP and CSM certified Project Control Officer with 7+ years across project controls, enterprise governance, and portfolio financial management — including monthly and quarterly billing cycles — in banking, financial services, and technology environments. Adept at building integrated schedule, cost, risk, and dependency views for enterprise programs valued up to \$3.2M. Proven track record of re-engineering change-control models and automating leadership dashboards to cut manual reporting effort by 40%. Highly skilled in delivery assurance and audit readiness across Agile and Waterfall environments.

WORK EXPERIENCE

IT Project Coordinator, Project Controls

(Contract) Oct 2025 – Jan 2026

C2 Prep, Brampton, Canada

- Re-engineered the delivery and change-control intake model after recurring delays, cutting issue resolution time from 10 to 8 business days across 15+ concurrent changes.
- Owned RAID, change, and decision logs across the full delivery lifecycle, surfacing 8–10 late risks per cycle and driving closure a week earlier.
- Consolidated 4+ fragmented trackers into one audit-ready, version-controlled SharePoint repository, cutting 5 hours per week of duplicate upkeep.

Research Specialist (Reporting & Governance)

Mar 2022 – Dec 2022

S&P Global, Hyderabad, India

- Built the integrated project-controls view — schedule, cost, risk, dependencies — across a \$3.2M program's 10+ workstreams, cutting reporting turnaround 30%.
- Tracked budget, forecast, cost variance, and cost allocation on the \$3.2M program against Finance inputs, escalating variances 2–3 weeks earlier before they moved the forecast.
- Drove 60+ enterprise RAID items to closure via structured escalation, cutting the aging-risk backlog 35% for delivery leadership.
- Ran the Director-level steering-committee cadence — agendas, pre-reads, decision/action logs, and reporting packs for bi-weekly governance forums.

Analyst (Project Control)

Jan 2018 – Feb 2022

SG Analytics (MSCI), Pune, India

- Overhauled leadership dashboards on project health, financial performance, and delivery risk, cutting manual reporting effort 40% across 6+ teams — roughly 830 analyst-hours a year.
- Reconciled budget, forecast, and cost variance across a ~\$2M enterprise program spanning a 20-person delivery organization, resolving every discrepancy before month-end sign-off — zero unexplained variance.
- Standardized reporting frameworks and re-engineered manual workflows, trimming effort 20–30% and 2 days off each month-end close.
- Coordinated vendor invoice review against deliverables and cost allocations, closing discrepancies before they reached month-end reporting.
- Supervised UAT cycles across reporting releases, logging defects with business users and tracking remediation through to sign-off.
- Supported onboarding and offboarding of project resources, coordinating system access, documentation, and transition handoffs to maintain delivery continuity.

Operations Executive

Dec 2016 – Nov 2017

The Bank of New York Mellon, Pune, India

- Performed cash, trade, and position reconciliations to ensure portfolio reporting accuracy.
- Coordinated with portfolio managers, custodians, and internal teams to resolve reconciliation breaks.

Junior Accountant

Jan 2015 – Nov 2016

Nucleosys Technologies, Pune, India

- Managed day-to-day accounting operations across 15+ concurrent projects, tracking and resolving discrepancies through to close-out.

ADDITIONAL WORK EXPERIENCE

Fulfillment Associate (Night Shift)

Nov 2025 – Present

Amazon, Canada

- Maintained high accuracy and process compliance in a high-volume, metrics-driven fulfillment operation, earning 10 Quality Performer badges.

EDUCATION

Algoma University — Graduate Certificate, Project Management, Canada

May 2023 – Jan 2025

Mumbai University — MBA (Finance), India

May 2012 – Feb 2015

Mumbai University — Bachelor of Commerce, India

May 2008 – Aug 2011

CERTIFICATIONS & SKILLS

Certifications: [PMP \(Mar 2025\)](#) · [CSM \(Apr 2025\)](#) · [Discovering SAP Analysis for Microsoft Office \(Apr 2025\)](#)

Project Controls: Integrated Scheduling · RAID Management · Change & Decision Logs · Milestone & Dependency Tracking · UAT Coordination · Delivery Assurance & Audit Readiness · Enterprise Governance Support · Risk & Issue Escalation · Resource Onboarding & Offboarding
